

This is a ***static text*** element containing styled text. **Styled text** elements are introduced by setting the *markup* attribute available for the **textElement** tag to *styled* and by formatting the text content using nested **style** tags and simple HTML tags, including **hyperlinks**.

This is a ***text field*** element containing **RTF** text. **RTF snippets** can be used inside text elements by setting the *markup* attribute available for the **textElement** tag to *rtf*.
